Date of Event Organized	17-02-21
Time	9.00am to 5.00pm
No. of participants	62
Name of Chief Guest / Speakers	Ms. Punitha T Amphisoft Technologies, Coimbatore

Description of the Event:

The one day virtual workshop for Gender equality discussed regarding inequalities. Inequality is first and foremost about an imbalance of power. Equal pay legislation, sexual harassment at work, even the parental leave system and flexible working practices, all reflect that imbalance of power in different ways. All of the above needs to be underpinned by compelling leadership and confident managers who buy in to the vision for equality and don't act as roadblocks to policies and procedures that work. But government can and should do more to drive progress.

Profile of Resource person:

Ms.Punitha T, Cofounder and Director, Amphisoft Technologies, Coimbatore. After completing her M.E. in Applied Electronics from Anna University, Chennai, she commenced my career with ISRO, Bangalore as Scientist-C. "Eyes are windows to the soul because they are the most honest part of the face. For example, we can control our mouths but we don't have any control over our eyes. When you're truly happy, your eyes become bigger and brighter involuntarily and give you away, but they look smaller when you're sad and worried."

The NSS unit of Kathir College of Engineering organised a free eye check-up camp on 10.06.2019. It was the college management who helped to organise such a welfare camp for the people of the local area. People who live outside the locations came for their eye check-up as well. There were 2 eye specialists and 5 ophthalmologists gave their service to this noble cause. The eye camp was well equipped with all the necessary gears for examining the patients' eyes. Moreover, a set up for minor eye operations was also arranged in a sanitized room. The chairman of our college let us know that the camp handled a total number of 216 patients at free of cost. Besides, the eye specialists performed 10 operations successfully in the operation chamber.

A helmet on your head will keep you away from a hospital bed!

A 'Safe Drive, Save Life' campaign was launched in our school on 16th August 2019. Our college NSS unit arranged this campaign. The students, teachers, and local administrative bodies also participated in this campaign. The purpose of this campaign was to raise consciousness among all. Students carried placards, carried festoons, and voiced slogans. They rode their motor cycles in a rally on the streets and adjoining roads, with a request to follow the rules of the road and to wear helmet while riding. They also took control over the traffic of the streets and roads for half a day deliberately. The traffic police officers helped and encouraged the students in every way. The students and the teachers arranged for a street corner from the dias of which they pointed out the danger of reckless driving, overtaking, and helmetless driving of the bikers. The whole day was fruitfully used. Thus, the campaign was a great success.

“Trees are the best monuments that a man can erect to his own memory. They speak his praises without flattery, and they are blessings to children yet unborn.” - Lord Orrery

The NSS unit of Kathir College of Engineering organized a tree plantation programme 27.09.2019. The program started with prayer at 10 in the morning. All the NSS volunteers and teachers participated in this program. Also, some local municipality department officers have participated in our program. They guided us on how to plant a sapling properly. The aim of the program is to plant a total of 500 saplings at Neelambur. One by one student and teachers started planting saplings. Firstly, we started planting saplings in the garden of our college campus and after that; we planted saplings in the nearby local areas of our college. Students also made some posters and banners on the importance of tree plantations. We pasted banners and posters in the area around our college. So that people read these and know the importance of tree plantation. After our goal of planting 500 trees is achieved, we come to our college. Finally, the program ended with the singing of the national anthem.

On 8th September 2018, A 'Self Defense Program' was organized by our college management and NSS unit in college campus. The chief guest and Trainer of Mr. Gautam from a Karate Class were invited to guide all the students and teachers regarding self-defense technique. All the teachers and students attended the program with great enthusiasm.

The main purpose of the program was to make all aware of their own hidden power to fight against any kind of attack. Now days many roadside attacks are witnessed like chain snatching, acid attacks or eve teasing and rape. To keep ourselves safe from such attacks, self - defense techniques are very important. Many self- defense techniques were performed by the trainer. Some students also participated in it. All were overwhelmed by the dexterity shown by the trainer. Such programs should be organised frequently in the campus as they prove beneficial to all.

It was 11th October 2018, Kathir College of Engineering organized a program to plant 300 saplings and young trees to celebrate our mother earth. The chief guest of Mr. Palanisamy, Surabhi Nursery is honored by the NSS programme officer. The main objective of this event was to teach students, how we can save our climate from pollution. This was a great initiative to make our atmosphere neat and clean. By tree plantation, we can develop a climax ecosystem free of greenhouse gases to reduce global warming.

Students and faculty members were asked to reach 8'O clock. The program started with prayers. Our honorable Principal started the event by planting the first sapling in the corner of the college garden with his hand. Plants were provided by the college management. About 200 seedlings were planted by the students of our campus and then watered by gardeners of the college. Teachers also participated in the tree plantation program and make a boundary of 100 plants along the roadside to resist environmental pollution. The main purpose of this event was to enhance awareness about the importance of tree plantations.
