Dear Sir,

Good day I would like to bring to your notice that Myself (Dr.P.Selvakumar, Librarian) and Prof Ravi (CSE) discussed with our college coordinator after received your library software quotation on 17-July-2015 at 11:30 am. Our coordinator has finalized few decisions regarding quotation of the library software. I want to mention them below.

Development Cost : Rs.25,000/- (Rupees Twenty Five Thousands Only)

Days Required : Free Implementation within 25 working days from the date of confirmation

Service & Support : 12 Months support is provided at free of cost from the date of Installation for application bugs only.

Size of implementation : Implementation is to be done for multiple server.

Maintenance : After 12 Months of free support we provide service in ~~AMC basis~~ Free. We charge 10% of the total installation cost. not possible

Payment Terms : Product cost Rs.10,000/- advance and the balance Rs. 10,000/- on installation. Balance Rs. 5000/- after 3 months successful running.

Customizations : Free

I request you to send your favorable reply soon through mail.
Thank You

Regards

Dr.P.Selvakumar
Librarian
Kathir College of Engineering
Coimbatore.

Dr. R. UDAIYAKUMAR, ME., Ph.D.,
Principal
Kathir College of Engineering
"Wisdom Tree" Avinashi Road,
Neelambur, Coimbatore - 641 062.

Based on the above, an advance of Rs. 10,000 may be released and initiate the process.

QUICKSCAN™ LITE QW2100

DATALOGIC

MULTI-PURPOSE USES FOR DIFFERENT APPLICATIONS

The QuickScan™ Lite QW2100 linear imager is an entry-level product created specifically for reading long and truncated bar codes which is common in some areas of the world. It is perfect for use in retail, light manufacturing, document/bill processing and banking/finance environments.

The QW2100 imager is small, lightweight and its ergonomic design is comfortable to use during daily operations. It offers sharp reading performance on most 1D bar codes and features a wide scanning angle with an extended scanning line which is perfect for capturing longer and wider bar codes typically found on utility bills and used by manufacturers of electronic parts. Additionally, the scanning line is thinner and brighter, allowing users to scan at wide angles without having to increase the scanning distance.

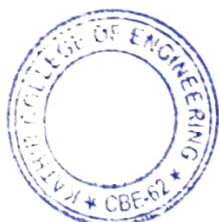

The QW2100 imager is available with two interface options: USB or Keyboard Wedge (RS-232) and includes various packaging options so that it can be ordered as a scanner only or as a kit equipped with a scanner, cable and stand to facilitate hands-free reading options.

VERSATILE STAND

A specially designed stand has been created for the QW2100 imager which is light in weight, collapsible to use as a holder instead of a stand, and also has a 'table head' for various angle settings.

- One scan angle
- Laser-free, non-destructive scanning
- Datalogic's patented TrueSpot technology for precise feedback
- Two interface options: USB or Keyboard Wedge (RS-232)
- Built-in safety mode trigger to protect the imager when dropped
- Compact and ultra-portable stand
- Water and Dust Rate Sealing (IP52)
- Drop Resistance to 1.5m (5ft)
- Uses the same cables as power supplies as the current Datalogic products
- Bulk packaging available (10 scanners per box)
- USB Cables Kits available
- Remote Host Usual and device service tools and in-probe operations (RS-232C) and
- FullUPC™ Series Plus offer a wide range of services to protect your investment, ensuring maximum productivity and ROI.
- Retail
- Light manufacturing
- Document/Bill Processing
- Banking - Financial Institutions

(Click)
Witness the power of

MODERNLIB Multiuser

MODERNLIB is a 32 bit Microsoft Windows XP/2003/Vista based software package for Library Automation.

Three modules are available in the system.

- ** Library Management Module** (Used by Librarian and Assistance)
- ** Library Circulation Module** (Used by Librarian and Assistance)
- ** Student Search and Inquiry Module** (Used by student and staff)

Salient Features

- * Computerization of all activities of Library, which includes, acquisition, issue, return, renewal, clearance, fine, payment, loss, binding, recovery and Missing Pages.
- * No prior knowledge is necessary. Highly technical system made easy and simple.
- * A student or staff can search the entire database to find a book based on different criteria, namely, author, title, subject, author & title etc.,
- * 135 different output reports. Reports generated exactly as and how you view them on the screen.
- * User Interface is highly intuitive
