Annual Report of the Events

The annual report of various International, National events and festivals are submitted hereunder for the last five years starting from 2016 to 2022. The idea behind celebrating national and international events is to bring the world into a harmonious living and bring everyone together with the knowledge of every minute aspects of life. In this guzzle and puzzle of life human beings have lost their values and run after the mechanical aspects of life that never care about the harmonious well being of the society. Many humanitarian organizations expressed their concern about the loss of human values in the fast-paced society. If this continues further, human beings will become the blood suckers of the era. So, The commemoration of national and international festivals and events help us to re establish or at least to remember the values of life.

Kathir College of Engineering encapsulates the values of life in the young minds so that these can be inculcated in the society it relies on. These actxivities encourage young people to actively participate in the learning of human values of healthy life.
